Dear Pastor,

The Bible is under siege today in ways we could not have imagined just a generation ago. Bible stories such as *Israel's Exodus from Egypt* are increasingly viewed with skepticism; simply stories with a message. The Creation account is viewed as a non-scientific fable. It's no wonder the knowledge of God is being lost in society. Of course, these problems come as no surprise to you, the local pastor.

But windows are opening. For example, many are not aware that more recent 20th century scientific discoveries point strongly to the idea that there is a God. And new discoveries in ancient history and archaeology support many of the Bible stories that were once thought to have never happened.

ScienceHistoryFaith Ministries has been raised up, we believe, by the Holy Spirit to work along side of you, the local pastor; to begin chipping away at these fortresses that have been raised up. Our ministry position is described in 2 Corinthians 10:4, 5 (NASB): *"For the weapons of our warfare are not of the flesh, but divinely powerful for the destruction of fortresses. We are destroying speculations and every lofty thing raised up against the knowledge of God..."*.

Would you prayerfully consider that God may have raised up this ministry to be a blessing to you and your congregation? We'd love to hear from you.

God's Blessings,

Gregory Drake
